

# Dixell Solutions Compatible with New Low GWP Refrigerants

In Commercial Refrigeration and Retail fields the use of new low GWP refrigerants is become a must and not only an option. Dixell has several years of experience in developing solutions designed to meet the market needs, and now, can offer a wide range of controllers and drivers compatible with new gasses for all the most important refrigeration applications. Dixell has carried out all the required tests to ensure that components released for use with new refrigerants are compatible in all respects.
