

WORK SMART

GET MORE DONE
IN LESS TIME.

Take the guesswork out of configuration and diagnostics for hundreds of service calls with the innovative White-Rodgers Connect app and universal heating controls. No more fiddling with dipswitches, counting flashing LEDs, or looking up fault codes. White-Rodgers Connect is preloaded with OEM default settings to save you time on installation. With more cross references than any other supplier, you can carry less and replace more.

Configure | Diagnose | Troubleshoot from your smartphone.
